

# Indian Spices – Major Specifications (Whole & Ground)

## Bay Leaf

### Whole Form Specifications

Parameter	Typical Specification
Appearance	Natural color, clean, free from infestation
Moisture	Max 10–12%
Extraneous Matter	Max 1%
Damaged / Discolored	Max 2%
Purity	Min 98–99%
Packaging	25 / 50 Kg PP or Jute Bags

### Ground / Powder Specifications

Parameter	Typical Specification
Appearance	Fine powder, characteristic color
Moisture	Max 10%
Mesh Size	60–80 mesh
Ash Content	Max 8–10%
Microbiological	As per export standards
Packaging	10 / 25 Kg laminated bags

## Black Cardamom

### Whole Form Specifications

Parameter	Typical Specification
Appearance	Natural color, clean, free from infestation
Moisture	Max 10–12%
Extraneous Matter	Max 1%
Damaged / Discolored	Max 2%
Purity	Min 98–99%
Packaging	25 / 50 Kg PP or Jute Bags

### Ground / Powder Specifications

Parameter	Typical Specification
Appearance	Fine powder, characteristic color
Moisture	Max 10%
Mesh Size	60–80 mesh
Ash Content	Max 8–10%
Microbiological	As per export standards

Packaging	10 / 25 Kg laminated bags
-----------	---------------------------

## Black Pepper

### Whole Form Specifications

Parameter	Typical Specification
Appearance	Natural color, clean, free from infestation
Moisture	Max 10–12%
Extraneous Matter	Max 1%
Damaged / Discolored	Max 2%
Purity	Min 98–99%
Packaging	25 / 50 Kg PP or Jute Bags

### Ground / Powder Specifications

Parameter	Typical Specification
Appearance	Fine powder, characteristic color
Moisture	Max 10%
Mesh Size	60–80 mesh
Ash Content	Max 8–10%
Microbiological	As per export standards
Packaging	10 / 25 Kg laminated bags

## Chilli

### Whole Form Specifications

Parameter	Typical Specification
Appearance	Natural color, clean, free from infestation
Moisture	Max 10–12%
Extraneous Matter	Max 1%
Damaged / Discolored	Max 2%
Purity	Min 98–99%
Packaging	25 / 50 Kg PP or Jute Bags

### Ground / Powder Specifications

Parameter	Typical Specification
Appearance	Fine powder, characteristic color
Moisture	Max 10%
Mesh Size	60–80 mesh
Ash Content	Max 8–10%
Microbiological	As per export standards

Packaging	10 / 25 Kg laminated bags
-----------	---------------------------

## Cinnamon

### Whole Form Specifications

Parameter	Typical Specification
Appearance	Natural color, clean, free from infestation
Moisture	Max 10–12%
Extraneous Matter	Max 1%
Damaged / Discolored	Max 2%
Purity	Min 98–99%
Packaging	25 / 50 Kg PP or Jute Bags

### Ground / Powder Specifications

Parameter	Typical Specification
Appearance	Fine powder, characteristic color
Moisture	Max 10%
Mesh Size	60–80 mesh
Ash Content	Max 8–10%
Microbiological	As per export standards
Packaging	10 / 25 Kg laminated bags

## Cloves

### Whole Form Specifications

Parameter	Typical Specification
Appearance	Natural color, clean, free from infestation
Moisture	Max 10–12%
Extraneous Matter	Max 1%
Damaged / Discolored	Max 2%
Purity	Min 98–99%
Packaging	25 / 50 Kg PP or Jute Bags

### Ground / Powder Specifications

Parameter	Typical Specification
Appearance	Fine powder, characteristic color
Moisture	Max 10%
Mesh Size	60–80 mesh
Ash Content	Max 8–10%
Microbiological	As per export standards

Packaging	10 / 25 Kg laminated bags
-----------	---------------------------

## Coriander

### Whole Form Specifications

Parameter	Typical Specification
Appearance	Natural color, clean, free from infestation
Moisture	Max 10–12%
Extraneous Matter	Max 1%
Damaged / Discolored	Max 2%
Purity	Min 98–99%
Packaging	25 / 50 Kg PP or Jute Bags

### Ground / Powder Specifications

Parameter	Typical Specification
Appearance	Fine powder, characteristic color
Moisture	Max 10%
Mesh Size	60–80 mesh
Ash Content	Max 8–10%
Microbiological	As per export standards
Packaging	10 / 25 Kg laminated bags

## Cumin

### Whole Form Specifications

Parameter	Typical Specification
Appearance	Natural color, clean, free from infestation
Moisture	Max 10–12%
Extraneous Matter	Max 1%
Damaged / Discolored	Max 2%
Purity	Min 98–99%
Packaging	25 / 50 Kg PP or Jute Bags

### Ground / Powder Specifications

Parameter	Typical Specification
Appearance	Fine powder, characteristic color
Moisture	Max 10%
Mesh Size	60–80 mesh
Ash Content	Max 8–10%
Microbiological	As per export standards

Packaging	10 / 25 Kg laminated bags
-----------	---------------------------

## Fennel

### Whole Form Specifications

Parameter	Typical Specification
Appearance	Natural color, clean, free from infestation
Moisture	Max 10–12%
Extraneous Matter	Max 1%
Damaged / Discolored	Max 2%
Purity	Min 98–99%
Packaging	25 / 50 Kg PP or Jute Bags

### Ground / Powder Specifications

Parameter	Typical Specification
Appearance	Fine powder, characteristic color
Moisture	Max 10%
Mesh Size	60–80 mesh
Ash Content	Max 8–10%
Microbiological	As per export standards
Packaging	10 / 25 Kg laminated bags

## Fenugreek

### Whole Form Specifications

Parameter	Typical Specification
Appearance	Natural color, clean, free from infestation
Moisture	Max 10–12%
Extraneous Matter	Max 1%
Damaged / Discolored	Max 2%
Purity	Min 98–99%
Packaging	25 / 50 Kg PP or Jute Bags

### Ground / Powder Specifications

Parameter	Typical Specification
Appearance	Fine powder, characteristic color
Moisture	Max 10%
Mesh Size	60–80 mesh
Ash Content	Max 8–10%
Microbiological	As per export standards

Packaging	10 / 25 Kg laminated bags
-----------	---------------------------

## Ginger

### Whole Form Specifications

Parameter	Typical Specification
Appearance	Natural color, clean, free from infestation
Moisture	Max 10–12%
Extraneous Matter	Max 1%
Damaged / Discolored	Max 2%
Purity	Min 98–99%
Packaging	25 / 50 Kg PP or Jute Bags

### Ground / Powder Specifications

Parameter	Typical Specification
Appearance	Fine powder, characteristic color
Moisture	Max 10%
Mesh Size	60–80 mesh
Ash Content	Max 8–10%
Microbiological	As per export standards
Packaging	10 / 25 Kg laminated bags

## Green Cardamom

### Whole Form Specifications

Parameter	Typical Specification
Appearance	Natural color, clean, free from infestation
Moisture	Max 10–12%
Extraneous Matter	Max 1%
Damaged / Discolored	Max 2%
Purity	Min 98–99%
Packaging	25 / 50 Kg PP or Jute Bags

### Ground / Powder Specifications

Parameter	Typical Specification
Appearance	Fine powder, characteristic color
Moisture	Max 10%
Mesh Size	60–80 mesh
Ash Content	Max 8–10%
Microbiological	As per export standards

Packaging	10 / 25 Kg laminated bags
-----------	---------------------------

## Mace

### Whole Form Specifications

Parameter	Typical Specification
Appearance	Natural color, clean, free from infestation
Moisture	Max 10–12%
Extraneous Matter	Max 1%
Damaged / Discolored	Max 2%
Purity	Min 98–99%
Packaging	25 / 50 Kg PP or Jute Bags

### Ground / Powder Specifications

Parameter	Typical Specification
Appearance	Fine powder, characteristic color
Moisture	Max 10%
Mesh Size	60–80 mesh
Ash Content	Max 8–10%
Microbiological	As per export standards
Packaging	10 / 25 Kg laminated bags

## Mustard

### Whole Form Specifications

Parameter	Typical Specification
Appearance	Natural color, clean, free from infestation
Moisture	Max 10–12%
Extraneous Matter	Max 1%
Damaged / Discolored	Max 2%
Purity	Min 98–99%
Packaging	25 / 50 Kg PP or Jute Bags

### Ground / Powder Specifications

Parameter	Typical Specification
Appearance	Fine powder, characteristic color
Moisture	Max 10%
Mesh Size	60–80 mesh
Ash Content	Max 8–10%
Microbiological	As per export standards

Packaging	10 / 25 Kg laminated bags
-----------	---------------------------

## Nutmeg

### Whole Form Specifications

Parameter	Typical Specification
Appearance	Natural color, clean, free from infestation
Moisture	Max 10–12%
Extraneous Matter	Max 1%
Damaged / Discolored	Max 2%
Purity	Min 98–99%
Packaging	25 / 50 Kg PP or Jute Bags

### Ground / Powder Specifications

Parameter	Typical Specification
Appearance	Fine powder, characteristic color
Moisture	Max 10%
Mesh Size	60–80 mesh
Ash Content	Max 8–10%
Microbiological	As per export standards
Packaging	10 / 25 Kg laminated bags

## Red Chilli

### Whole Form Specifications

Parameter	Typical Specification
Appearance	Natural color, clean, free from infestation
Moisture	Max 10–12%
Extraneous Matter	Max 1%
Damaged / Discolored	Max 2%
Purity	Min 98–99%
Packaging	25 / 50 Kg PP or Jute Bags

### Ground / Powder Specifications

Parameter	Typical Specification
Appearance	Fine powder, characteristic color
Moisture	Max 10%
Mesh Size	60–80 mesh
Ash Content	Max 8–10%
Microbiological	As per export standards

Packaging	10 / 25 Kg laminated bags
-----------	---------------------------

## Star Anise

### Whole Form Specifications

Parameter	Typical Specification
Appearance	Natural color, clean, free from infestation
Moisture	Max 10–12%
Extraneous Matter	Max 1%
Damaged / Discolored	Max 2%
Purity	Min 98–99%
Packaging	25 / 50 Kg PP or Jute Bags

### Ground / Powder Specifications

Parameter	Typical Specification
Appearance	Fine powder, characteristic color
Moisture	Max 10%
Mesh Size	60–80 mesh
Ash Content	Max 8–10%
Microbiological	As per export standards
Packaging	10 / 25 Kg laminated bags

## Turmeric

### Whole Form Specifications

Parameter	Typical Specification
Appearance	Natural color, clean, free from infestation
Moisture	Max 10–12%
Extraneous Matter	Max 1%
Damaged / Discolored	Max 2%
Purity	Min 98–99%
Packaging	25 / 50 Kg PP or Jute Bags

### Ground / Powder Specifications

Parameter	Typical Specification
Appearance	Fine powder, characteristic color
Moisture	Max 10%
Mesh Size	60–80 mesh
Ash Content	Max 8–10%
Microbiological	As per export standards

Packaging	10 / 25 Kg laminated bags
-----------	---------------------------

## White Pepper

### Whole Form Specifications

Parameter	Typical Specification
Appearance	Natural color, clean, free from infestation
Moisture	Max 10–12%
Extraneous Matter	Max 1%
Damaged / Discolored	Max 2%
Purity	Min 98–99%
Packaging	25 / 50 Kg PP or Jute Bags

### Ground / Powder Specifications

Parameter	Typical Specification
Appearance	Fine powder, characteristic color
Moisture	Max 10%
Mesh Size	60–80 mesh
Ash Content	Max 8–10%
Microbiological	As per export standards
Packaging	10 / 25 Kg laminated bags
